

Novelis Reports Fiscal 2018 Third Quarter Results

Financial strength, strategic investments in automotive capabilities to grow its leadership position

ATLANTA, Feb. 1, 2018 /PRNewswire/ --

Third Quarter Fiscal Year 2018 Highlights

- Net income attributable to common shareholder of \$121 million; excluding special items, net income increased 106% YoY
- Adjusted EBITDA increased 20% YoY to record \$305 million
- Net Sales increased 33% YoY to \$3.1 billion
- Shipments of 796 kilotonnes increased 6% YoY; automotive shipments increased 12%
- Leveraging strength of balance sheet to make key strategic investments in automotive aluminum

Novelis Inc., the world leader in aluminum rolling and recycling, today reported net income attributable to its common shareholder of \$121 million for the third quarter of fiscal year 2018, compared to \$63 million in the prior year period. Excluding tax-affected special items in both years, the company reported net income of \$138 million in the third quarter of fiscal 2018, more than double the \$67 million reported in the third quarter of fiscal 2017.

The increase in net income, excluding special items, is mainly due to a 20 percent increase in Adjusted EBITDA over the prior year to a record \$305 million in the third quarter of fiscal 2018. This increase reflects higher shipments and the company's strategy to deliver a more favorable product mix with higher automotive shipments and increased operational efficiencies. Adjusted EBITDA reached \$383 per ton in the quarter.

Net sales increased 33 percent over the prior year to \$3.1 billion for the third quarter of fiscal 2018, driven by higher average aluminum prices, higher total shipments, and a favorable impact from the strategic portfolio shift to higher conversion premium products. Shipments of flat rolled products increased six percent to 796 kilotonnes. Automotive sheet shipments increased 12 percent year-over-year, as production has continued to successfully ramp to meet strong customer demand.

"Aluminum is increasingly the material of choice for our customers. Following another quarter of record-setting financial results, we are making strategic investments to grow with our customers and advance the continued penetration of aluminum sheet in the broad automotive market of competing materials," said Steve Fisher, President and CEO of Novelis. "These investments, coupled with the most advanced manufacturing processes and largest footprint in the industry, solidify our global leadership position and strengthen our diverse portfolio of lightweight, high-strength aluminum solutions."

The company recently announced plans to expand its production footprint in the US with an approximately \$300 million investment in automotive finishing capacity in Guthrie, Kentucky. Novelis also has agreed to acquire operating facilities and manufacturing assets for €200 million at its Sierre, Switzerland, plant that have historically been leased.

The company reported free cash flow of \$79 million for the third quarter of fiscal 2018, including \$54 million of capital expenditures. Year-to-date free cash flow has improved \$74 million over the prior year, primarily a result of higher Adjusted EBITDA, lower cash interest payments due to refinancing savings and lower metal price lag, partially offset by higher taxes and working capital requirements due to rising aluminum prices.

"Record Adjusted EBITDA for the second consecutive quarter has put us on track to achieve record free cash flow this fiscal year, and is providing the financial flexibility to reduce net debt and seek strategic investments, particularly in the growing automotive segment," said Devinder Ahuja, Senior Vice President and Chief Financial Officer for Novelis.

As of December 31, 2017, the company reported a strong liquidity position of \$1,724 million.

U.S. Tax Cuts and Jobs Act of 2017

During the third quarter of fiscal 2018, the company recorded a net \$18 million non-cash income tax benefit for the remeasurement of deferred tax assets and liabilities in accordance with the recently enacted US tax reform. The tax benefit attributable to the common shareholder is \$34 million, as \$16 million of tax expense is attributable to non-controlling interest related to Logan Aluminum as reflected in the net loss attributable to noncontrolling interests in our financial statements. Other provisions of the Act are not expected to have a material impact on fiscal year 2018.

Full Year Fiscal 2018 Guidance

The company expects to be on the upper end of its previously guided fiscal 2018 Adjusted EBITDA range of \$1,150-\$1,200 million. Fiscal 2018 free cash flow is expected to be on the lower end of its previously guided range of \$400-450 million, driven by the impact of higher aluminum prices. The recently announced automotive investments in the US and Switzerland will not impact fiscal 2018 free cash flow.

Non-GAAP Financial Measures

This press release and the presentation slides for the earnings call contain non-GAAP financial measures as defined by SEC rules. We believe these measures are helpful to investors in measuring our financial performance and liquidity and comparing our performance to our peers. However, our non-GAAP financial measures may not be comparable to similarly titled non-GAAP financial measures used by other companies. These non-GAAP financial measures have limitations as an analytical tool and should not be considered in isolation or as a substitute for GAAP financial measures. To the extent we discuss any non-GAAP financial measures on the earnings call, a reconciliation of each measure to the most directly comparable GAAP measure will be available in the presentation slides filed as Exhibit 99.2 to our Current Report on Form 8-K furnished to the SEC concurrently with the issuance of this press release. In addition, the Form 8-K includes a more detailed description of each of these non-GAAP financial measures, together with a discussion of the usefulness and purpose of such measures.

Attached to this news release are tables showing the Condensed Consolidated Statements of Operations, Condensed Consolidated Balance Sheets, Condensed Consolidated Statements of Cash Flows, Reconciliation to Adjusted EBITDA, Free Cash Flow, Reconciliation to Liquidity, Reconciliation to Net Income excluding Special Items, and Segment Information.

Forward-Looking Statements

Statements made in this news release which describe Novelis' intentions, expectations, beliefs or predictions may be forward-looking statements within the meaning of securities laws. Forward-looking statements include statements preceded by, followed by, or including the words "believes," "expects," "anticipates," "plans," "estimates," "projects," "forecasts," or similar expressions. Examples of forward looking statements in this news release are statements about the company's ability to achieve record free cash flow for fiscal 2018. Novelis cautions that, by their nature, forward-looking statements involve risk and uncertainty and Novelis' actual results could differ materially from those expressed or implied in such statements. We do not intend, and we disclaim any obligation, to update any forward-looking statements, whether as a result of new information, future events or otherwise. Factors that could cause actual results or outcomes to differ from the results expressed or implied by forward-looking statements include, among other things: changes in the prices and availability of aluminum (or premiums associated with such prices) or other materials and raw materials we use; the capacity and effectiveness of our hedging activities; relationships with, and financial and operating conditions of, our customers, suppliers and other stakeholders; fluctuations in the supply of, and prices for, energy in the areas in which we maintain production facilities; our ability to access financing for future capital requirements; changes in the relative values of various currencies and the effectiveness of our currency hedging activities; factors affecting our operations, such as litigation, environmental remediation and clean-up costs, labor relations and negotiations, breakdown of equipment and other events; the impact of restructuring efforts in the future; economic, regulatory and political factors within the countries in which we operate or sell our products, including changes in duties or tariffs; competition from other aluminum rolled products producers as well as from substitute materials such as steel, glass, plastic and composite materials; changes in general economic conditions including deterioration in the global economy, particularly sectors in which our customers operate; cyclical demand and pricing within the principal markets for our products as well as seasonality in certain of our customers' industries; changes in government regulations, particularly those affecting taxes, derivative instruments, environmental, health or safety compliance; changes in interest rates that have the effect of increasing the amounts we pay under our credit facilities and other financing agreements; the effect of taxes and changes in tax rates; and our ability to generate cash. The above list of factors is not exhaustive. Other important risk factors included under the caption "Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended March 31, 2017 are specifically incorporated by reference into this news release.

(A) Effective in the first quarter of fiscal 2018, management removed the impact of metal price lag from Adjusted EBITDA in order to enhance the visibility of the underlying operating performance of the company. The impact of metal price lag is now reported as a separate line item in this reconciliation. This change does not impact our condensed consolidated financial statements. Adjusted EBITDA for the prior period presented has been updated to reflect this change.
