

Novelis Announces Price Increase On Aluminium Rolled Products In Europe

ZURICH, Oct. 6, 2010 -- Novelis today announced that it is increasing the prices of the speciality aluminium sheet products that it sells to European distribution and industrial customers. The company's fabrication charge will increase by up to 140 Euros per tonne, depending on the product.

The price change is effective immediately for all new orders booked and for all shipments on or after January 1, 2011. Orders currently under a fixed contract are not affected by this announcement.

"There are a number of reasons for this price increase," said Tadeu Nardocci, senior vice president of Novelis Inc. and president of Novelis Europe. "The tight supply situation, with demand remaining strong, must be reflected in our prices and payment terms. Furthermore, the upward trend in metal premiums continues and this cost increase is also a factor."

Novelis is the leading supplier of high quality aluminium sheet to the European market.
