

Novelis Reports First Quarter Fiscal Year 2023 Results

ATLANTA, Aug. 3, 2022 /PRNewswire/ --

Q1 Fiscal Year 2023 Highlights

- Net income attributable to its common shareholder increased 28% YoY to \$307 million
- Net income from continuing operations of \$307 million, up 1% YoY; net income from continuing operations excluding special items was \$307 million, up 18% YoY
- Record Adjusted EBITDA of \$561 million, up 1% YoY; Adjusted EBITDA per ton \$583
- Shipments of 962 kilotonnes, down 1% from 973 kilotonnes in the prior year

Novelis Inc., a leading sustainable aluminum solutions provider and the world leader in aluminum rolling and recycling, today reported results for the first quarter of fiscal year 2023. Net income attributable to its common shareholder increased 28% versus the prior year to a record \$307 million, while net income from continuing operations increased 1% to \$307 million. Excluding special items in both years, first quarter fiscal year 2023 net income from continuing operations increased 18% versus the prior year to \$307 million due primarily to higher underlying Adjusted EBITDA, unrealized derivative gains and a lower tax provision in the current year, partially offset by a tax litigation gain benefiting prior year net income.

"Novelis once again delivered record financial performance in the first quarter, following our record performance last fiscal year," said Steve Fisher, President and CEO, Novelis Inc. "With our unmatched global footprint, broad product portfolio, and first mover capacity expansion plans to support growing demand for innovative and sustainable aluminum solutions, Novelis will continue to lead the aluminum industry in fostering a circular economy and driving long-term value for our stakeholders."

Net sales increased 32% to \$5.1 billion for the first quarter of fiscal year 2023, compared to \$3.9 billion in the prior year period, primarily driven by higher average aluminum prices and local market premiums. Total flat rolled product shipments were 962 kilotonnes, 1% lower than prior year shipments of 973 kilotonnes, due mainly to supply chain constraints.

Adjusted EBITDA increased 1% to a record \$561 million in the first quarter of fiscal year 2023, compared to \$555 million in the prior year period which included a \$47 million gain related to a favorable decision in a Brazilian tax litigation. The underlying increase in Adjusted EBITDA is primarily due to higher product pricing, including some higher cost pass-through to customers, favorable product mix on improved automotive and aerospace shipments, and lower metal costs due to improved recycling performance, partially offset by high cost inflation and unfavorable foreign exchange translation.

Adjusted Free Cash Flow from Continuing Operations was an outflow of \$72 million in the first quarter of fiscal year 2023, higher than the prior year period outflow of \$30 million due primarily to less favorable metal price lag. The company had a net leverage ratio (Net Debt / TTM Adjusted EBITDA) of 2.2x at the end of the first quarter of fiscal year 2023, compared to 2.5x in the prior year period.

"In a strong demand but capacity constrained environment, we continue to focus on delivering high-quality, high-recycled-content products to customers while continually optimizing our operations and portfolio," said Devinder Ahuja, Executive Vice President and Chief Financial Officer, Novelis Inc. "Given the growing market, we are vigorously allocating capital to continue to grow alongside our customers, with more than \$4.5 billion of investment opportunities on our horizon."

The company continues to maintain a strong Total Liquidity position of \$2.4 billion as of June 30, 2022.

Non-GAAP Financial Measures

This news release and the presentation slides for the earnings call contain non-GAAP financial measures as defined by SEC rules. We believe these measures are helpful to investors in measuring our financial performance and liquidity and comparing our performance to our peers. However, our non-GAAP financial measures may not be comparable to similarly titled non-GAAP financial measures used by other companies. These non-GAAP financial measures have limitations as an analytical tool and should not be considered in isolation or as a substitute for GAAP financial measures. To the extent we discuss any non-GAAP financial measures on the earnings call, a reconciliation of each measure to the most directly comparable GAAP measure will be available in the presentation slides, which can be found at novelis.com/investors. In addition, the Form 8-K includes a more detailed description of each of these non-GAAP financial measures, together with a discussion of the usefulness and purpose of such measures.
